

A selection of comments by participants and schools regarding the 16/17 TSST Programmes delivered by Redborne Upper School in partnership with the University of Bedfordshire.

Quotes from mathematics participants:

'The course has been excellent, especially the sessions run by (the Redborne maths unit leader)'

'Excellent subject knowledge and resources acquired.'

'Very good, interactive sessions. Interesting subject matter and really positive'

'Excellent resources'

Quotes from physics participants

'The programme has been extremely useful and allowed me to build my knowledge and confidence'.

'(the Redborne physics unit leader) is very knowledgeable and enthusiastic'

'(the face to face taught sessions were) excellent – very supportive when you don't understand'

Quotes by coaches within participating schools

'more depth of subject knowledge when explaining concepts was observed during observations – nice clear explanations ...she has transformed into a good physics teacher. She has grown and developed in all areas...'

'this course has given him more confidence in his maths knowledge and developed more thought about the actual 'teaching of maths' instead of the content to be covered.'

'the students are clearly enjoying their lessons and making good progress'

'the pupils are always engaged in her lessons and love being taught by her'.
