

Name: Michelle Williams

School Name: Redborne Upper School

Current Position: Subject leader ICT and Computer Science

Designation: Specialist Leader in Education, CAS Master Teacher

Main Phase: Secondary

Specialist Areas: KS3 – 5 ICT, KS3 & 4 Computer Science

Statement

I have an enthusiasm and passion for the subject and I relish the opportunity to support schools through this SLE role. I can offer support with the new computing curriculum, and whole school ICT development. Having many years' experience of training and coaching teachers including PGCE students and NQT's, I am able to support schools in both a mentoring and training capacity.

I am currently a subject leader, and have been in this role for 12 years. I have been delivering and assessing KS3 and GCSE Computer Science for 4 years and have 18 years' experience of teaching ICT at KS3, 4 and 5. I am a CAS Master Teacher which involves providing CPD for others.

I have developed schemes of work and resources for a wide range of courses such as GCSE ICT, Cambridge Nationals in IT, Cambridge Technicals in IT and GCSE Computer Science. OCR has used my students' work for standardisation exercises. I have experience of managing a highly successful department with large cohorts and non-specialists teaching the subject. My main areas of programming include: Kodu, Scratch, Python and Crumble control board.
