

POLICY FOR DEALING WITH RACIST INCIDENTS

Rationale

The governing body recognises the value of an effective policy for dealing with racist incidents, and has endorsed the Macpherson Report's definition of a racist incident, namely that: "A racist incident is an incident which has been perceived to be racist by the victim or any other person". In addition, they recognise their responsibility to comply with current legislation.

Policy

The purpose of this policy is to create a learning community characterised by empathy, understanding and harmony across ethnic, national and religious heritages, where diversity is nurtured, valued and celebrated. The following values and principles underpin this policy:

- A commitment to equality of opportunity for all staff and students
- A commitment to the eradication of racism, xenophobia and discrimination on grounds of religion
- Recognition that every learner should be equipped with the knowledge, skills and achievements, which they need for full participation in society
- Expectation that everyone will contribute to reducing and removing harassment from schools
- A commitment to fostering attitudes of open-mindedness, empathy, understanding between different ethnic heritages and the concept of global citizenship
- A commitment to fostering respect for the identities of students, staff, and their experiences, histories and concerns
- Recognition that all learners are entitled to a multicultural and anti-racist education, irrespective of the presence or absence of learners who are from ethnic minorities
- A commitment to creating schools and wider communities to which all their members can feel they belong
- Recognition that every racist incident, whether or not it arises from racist intent, provides an opportunity for learning
- Recognition that students, parents or carers, employees and the wider community, can all contribute to the achievement of harmonious relationships between people of different nationalities, religions and ethnic heritages
- Recognition that there must be active monitoring and evaluation of policies and practices
- Recognition of the need for public accountability in reporting on racist incidents, follow-up action and outcomes

The School

- 1 Students, staff, parents/carers and visitors are made aware that racial harassment, bullying, abuse, graffiti and other racist behaviour, in any part of the school, and by students to and from school, will be challenged and will not be tolerated.
- 2 The school promotes a curriculum, which is explicit in challenging racism.

School Staff

- 1 All staff, including administrative and support staff are familiar with, and able to implement the procedures for dealing with and recording racist incidents.
- 2 Staff will look out for, and respond appropriately to, incidents and reported incidents of a racist nature.
- 3 All staff are trained on how to implement the school's policy and procedures for dealing with racist incidents.
- 4 Good practice and effective strategies for dealing with racist incidents are shared between staff.
- 5 Racial equality is promoted in the employment of staff.

Students

- 1 Where a student has been subject to an incident the student is able to invite an adult external to the school to express his or her views.
- 2 All areas of the school are safe and encourage and promote positive and cooperative behaviour among students.

Identifying Racist Behaviour

The following may constitute behaviour with a racist motive:

- physical assault
- derogatory name calling
- racist jokes
- extortion
- using threatening words
- using ridicule
- racist graffiti
- wearing racist tattoos, badges or insignia
- intimidation

- using taunts
- deliberate isolation of students by their peers
- incitement of others to behave in a racist manner
- comments which are offensive on grounds of colour, race, ethnic and national origin, nationality and citizenship
- drawings which are offensive on grounds of colour, race, ethnic and national origin, nationality and citizenship
- bringing to school material which is racist, including leaflets, comics or magazines

Responding to Racist Incidents

- 1 The flow chart attached to this document (Appendix I) sets out a sequence for responding to racist incidents.
- 2 The school will respond to racist incidents by:
 - taking immediate action where a racist incident takes place
 - provide appropriate support for the person who has been the subject of a racist incident
 - appropriate intervention with the person who has initiated the incident
 - making clear where a racist incident has occurred, that this is unacceptable
 - encouraging students and staff to explore their own perceptions in the light of the values and principles set out above
 - being careful when dealing with racist incidents that involve retaliation, to ensure that appropriate action is taken both with the person who has initiated the incident and the person who has retaliated in response to it
 - discussing racist incidents with parents or carers and encouraging them to reinforce the school's anti-racist practices at home
 - ensuring that failure to observe school policies and procedures is covered in the school's disciplinary procedures
 - identifying, sharing and promoting good practice
- 3 Racist incidents can cover a range of occurrences, from violence with a racist motivation to use of language, which causes offence but arises from ignorance or thoughtlessness rather than from any overtly racist motivation. However, a student's life chances may be undermined by behaviour, which is racist in nature, even if there is no racist intent. Consequently all racist incidents will be logged. The incidence of racist incidents will be monitored and analysed by Assistant Head (Pastoral).
- 4 With some racist incidents, it may not be necessary to proceed to investigation. Nevertheless, the nature of, and the resolution to, the racist incident should be recorded. Other racist incidents will require investigation and, where necessary, further action in accordance with the school's Behaviour Policy.
- 5 The person responsible for the incident should be provided with the opportunity to learn from it. In some instances, for example where racist behaviour arises out of ignorance, then counselling from a member of staff might be appropriate.
- 6 It may also be appropriate to involve the parents or carers, both of the person responsible for the incident and of the person subject to the incident. The person who has been the subject of a racist incident needs to be appropriately supported.
- 7 In some circumstances it may be necessary to refer a racist incident to the Police.

Recording Racist Incidents

- 1 All racist incidents, as determined by the definition agreed above, will be recorded on our racist incident log. Plans are in place to improve the logging of these incidents.
- 2 The record of each individual racist incident should include:
 - date
 - name(s) of student(s)/person(s) involved
 - a classification of the incident, with further description of what happened where appropriate
 - ethnicity, religion, nationality of persons involved
 - action taken to support the person(s) who has/have been the subject of the incident
 - action taken in relation to the person(s) responsible for the incident
 - the nature of the contact with the parent or carer.
- 3 Whilst all incidents will be recorded, not all will require investigation.
- 4 The Headteacher will exercise professional judgement on the threshold below which it may not be appropriate to report a particular racist incident to a parent or carer.
- 5 The Headteacher will also exercise professional judgement on the circumstances in which it will be appropriate to give the young person the opportunity to complete the form.

Racist Incidents Involving Adults

The governing body will ensure that:

- all racist incidents and complaints of racial discrimination and racial harassment against staff are recorded and investigated within one week.
- active steps are taken to protect staff from racist bullying or harassment by students, parents or carers, visitors and other staff
- where appropriate, racist incidents are dealt with through the school's disciplinary procedures

- all staff have access to the school's grievance procedures in the event of being subject to racist incidents, including racial discrimination and racial harassment

Where the Headteacher is responsible for a racist incident, the chair of governors will investigate this, with appropriate personnel advice. The Headteacher will be subject to the same rights and expectations as other members of staff at the school.

Parents or Carers of students who are the subject of racist incidents will be informed of those incidents and of the action taken to deal with them. Parents or Carers of students who are responsible for racist incidents may be invited to play an active role in dealing with the situation, depending on the situation.

Where a governor is responsible for a racist incident, the governing body will decide what action should be taken. Where a governor is subject to a racist incident, the governing body will provide appropriate support and will decide on the nature of the investigation and the action to be taken following the investigation. Action taken by the governing body should be consistent with the values, principles, policies and practice set out in this policy.

Where a visitor (who might also be a parent or carer of a student at the school) is responsible for a racist incident, this will be reported to the Headteacher who will take some or all of the following actions:

- inform the visitor that the school does not tolerate racist behaviour
- invite the visitor to leave the premises
- if the visitor is employed by an organisation, inform the visitor that the organisation will be informed of the racist incident
- inform the organisation accordingly
- contact the Police
-

Monitoring, Evaluation and Review

The Assistant Head (Pastoral) will oversee the recording and monitoring of racist incidents.

Careful record-keeping of racist incidents will enable the school to identify patterns of behaviour whereby individuals or groups can be shown to be regular victims or perpetrators of racist incidents.

All incidents perceived to be racially motivated by any party should be recorded using the Racist Incident Record sheets (Appendices 2 and 3). A copy will be kept in the student's file. Where a student is excluded this will be recorded with the LA by the Headteacher's PA.

The examination of these records on a regular basis will provide the school with a picture of the frequency and nature of racist incidents and give some indication as to how effectively the school is combating such behaviour.

Staff effectiveness in dealing with racist incidents is monitored and evaluated.

The school will provide annually, aggregated data to the governing body derived from the racist incident forms. This data should be disaggregated in line with the categories provided on the Racist Incident Forms. The governing body will use this, and other supporting information, to review the school's policy and practice on dealing with racist incidents. This policy will be reviewed every three years.

The pastoral governor will oversee the implementation of the policy.

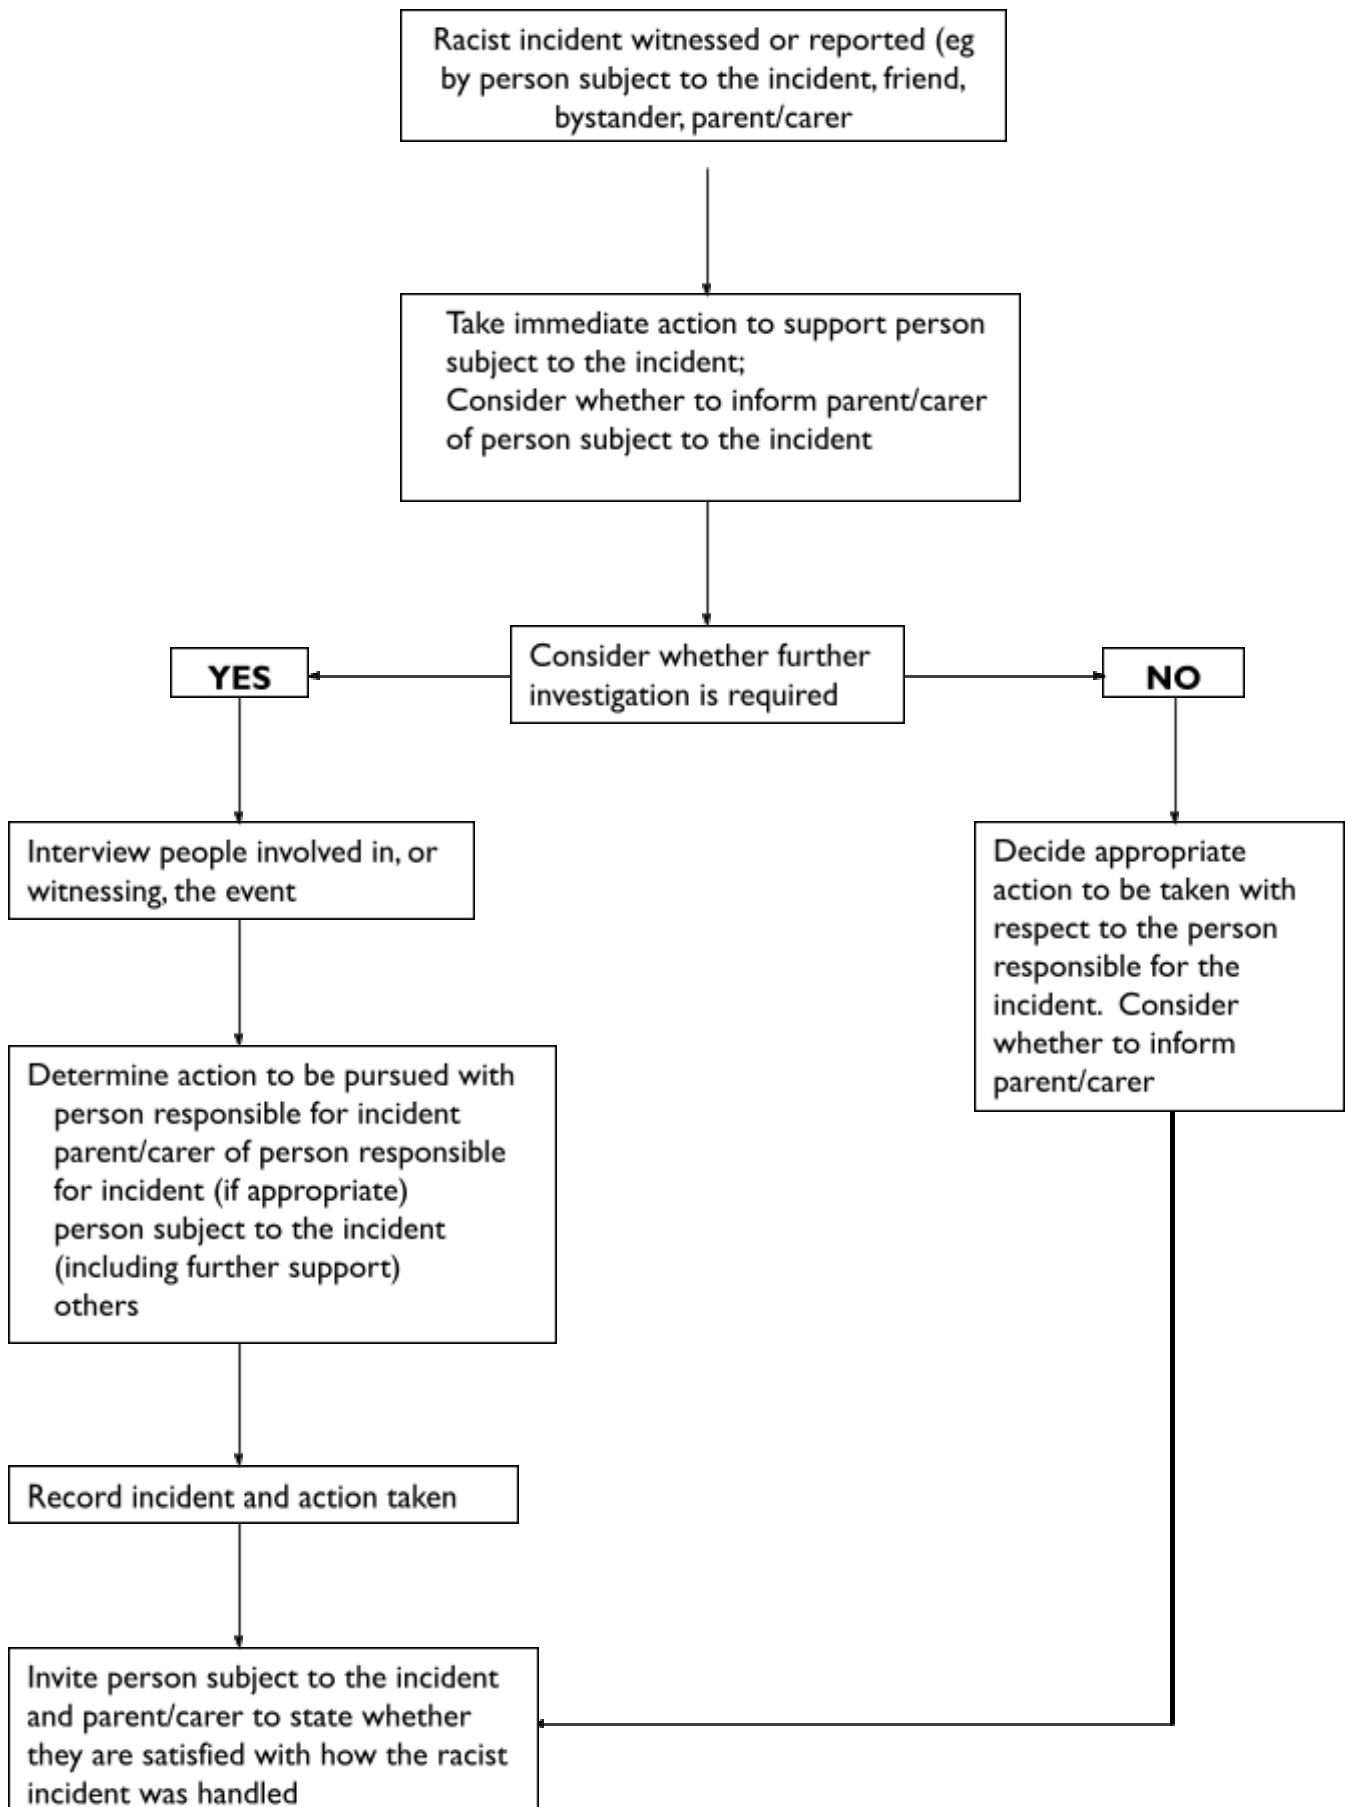

The governing body through the Curriculum and Student Welfare sub-committee will triennially review and evaluate the effectiveness of the policy. Where necessary an action plan will be agreed to overcome any deficiencies.

Dissemination of Policy

This policy is available on the school website, on request to the LA and Ofsted through the Headteacher.
