

Redborne Upper School

Special Education Needs and Disabilities Policy

This policy will be evaluated and reviewed every year by the SENDCo and Assistant Headteacher Curriculum: Implementation (Nikki Brennan)

This policy is available on the school website, on request to parents and carers, the LA and Ofsted through the Head teacher.

Date approved by governors: November 2022

Date for review: July 2023

School acknowledgement

The governing body believes that all students at Redborne are entitled to a full and balanced comprehensive education. Provision is made for those students with Special Educational Needs and Disabilities to ensure that they have equality of opportunity in order to fulfil their potential.

The school appoints a Special Educational Needs and Disabilities Co-ordinator (known as SENDCo) and is the Head of Learning Support, who oversees the day to day operations of the Learning Support Department as well as coordinating provision across the whole school ensuring that all staff are meeting the needs of students with learning difficulties and disabilities.

The work of the SENDCo is overseen by a named member of the Senior Leadership Team (SLT) and by a named member of the Governing Body. The objectives of the SENDCo are to:

- To provide students with Special Educational Needs and Disabilities (SEND) with equal opportunities to access the National Curriculum, as far as is reasonably possible.
- To ensure that students with Special Educational Needs and Disabilities are effectively identified, assessed, monitored and supported.
- To provide opportunities for all students with SEND to work towards achieving the highest standard of attainment and maximising their potential.

This policy aims to outline the systems in place to meet these objectives and acts as a guidance document for parents, students and staff in the identification and support of students with SEND.

Special Educational Needs and Disabilities Policy

1. Day to day co-ordination

1.1 The responsibility for the day to day co-ordination of the school's education for students with SEND lies with:

Mr B Middleton – SENDCo/Head of Learning Support

1.2 To support the SENDCo in this role are:

Nikki Brennan: Assistant Headteacher

Caroline Goodrum: SEND Administrator

2. Co-ordination of SEND Provision

2.1 The SENDCo is the focal point for information on day to day issues relating to SEND. There is close liaison between the Heads of Faculty, Heads of Year, Senior Leadership Team and the SENDCo.

2.2 The SENDCo in turn reports directly to the delegated member of the SLT and onwards to the Headteacher and governing body.

2.3 In planning for provision information is drawn from all these sources and leads to the drawing up of a departmental self-evaluation framework and subsequent development plan on a yearly basis.

3. Admissions

3.1 The School's admission policy for students with Special Educational Needs and Disabilities is in line with that of all Central Bedfordshire Upper Schools. It is consistent with the school's standard admissions policy in that priority is given to students with an Education, Health and Care Plan that have chosen Redborne as their 'named' school from their transition review and other identified vulnerable students as well as those who live in catchment.

3.2 There may be exceptional circumstances whereby the school is not able to make appropriate provision and fulfil the needs of the Education, Health and Care Plan.

4. Bespoke curriculum

4.1 Redborne currently operates a small bespoke curriculum for those students who are unable to access our mainstream curriculum. The running of this provision is dependent on the needs and number of students that are unable to follow the traditional Redborne curriculum.

5. Facilities for SEND

The school has the following facilities to support students:

- Some dedicated areas for Learning Support provision around the school.
- There are access lifts in the library. The school is equipped with ramps to most external entrance points to facilitate access by those using wheel chairs. Most internal doors are accessible by wheel chair.
- There are 3 disabled-access toilets in school.
- There are several items of adjustable height furniture within school.
- There are resource adaptation facilities for those with Visual Impairment.
- Advice is taken from advisory services dependent on the needs of individual students attending Redborne Upper School.

6. Resources

6.1 Students with earmarked funding as a result of their Education, Health and Care Plan have this funding allocated in line with the requirements on their Education, Health and Care Plan.

6.2 Other students may be eligible for additional specialist support in literacy or numeracy either through timetabled Learning Support or Curriculum Support lessons, through targeted intervention sessions (including during tutor time, lesson time and after school) or through support in class.

6.3 After school tutoring is also offered for selected pupils through Study Club which provides pupils with more opportunities to receive support from our teaching assistant team on chosen curriculum areas.

6.4 There is also provision for the emotional needs of students via the pastoral support staff, allocated key workers, personal guidance and mentoring.

6.5 Priority is given to those on SEND support but there may be occasions where students access support without being identified on the SEND register.

7. Needs Identification, Assessment and Review

7.1 Identification - Students with SEND needs are identified through a number of different routes:

- Through liaison with middle schools or other Upper Schools and the provision of information in order to build a SEND Profile which is made available to all staff,
- Through baseline testing of all students at the end of Year 8 prior to entry to year 9,
- Through Access Arrangement screening during the Autumn term of Year 9,
- Through school's internal examinations, indicators and teacher assessment,
- Through investigation of concerns raised by staff, parents or the students themselves.

7.2 Staff concerns are raised by the individual teacher with their head of department or the student's form tutor. Where a range of strategies have been tried and deemed to fail, they are then referred to the SENDCo for further investigation.

7.3 Staff are asked to consider carefully whether the student meets the SEND benchmark of requiring intervention, beyond high quality teaching that is differentiated and personalised. "High quality teaching that is differentiated and personalised will meet the individual needs of the majority of children and young people. Some children and young people need educational provision that is additional to or different from this. This is special educational provision under Section 21 of the Children and Families Act 2014." (revised Code of Practice 2015).

7.4 For a referral to SEND support, the concept of 'adequate progress' is central. Where adequate progress is not made through intervention within the classroom, additional support from outside of the school's resources may be sought and therefore a child will be recognised as requiring SEND Support.

7.5 Parental concerns are raised initially with the subject teacher and/or the form tutor and the above mentioned procedure is then used. Where parental concerns are of a more personal and/or medical nature parents may address their concerns directly with the Head of Year and/or SENDCo. In these cases the parents are invited in to discuss their concerns and an agreed plan of action is determined.

7.6 Assessment of need - In many cases there is dialogue between the school and home and between the SENDCo and teaching staff to ensure that a full picture of the situation is achieved. Where possible the student will be involved in these meetings to ensure their voice is heard. This may need further investigation with trained professionals as we cannot diagnose any specific difficulties but can signpost and make referrals to the relevant services and procedures where needed. Diagnostic tests may be used to help inform the decision making process. This may include specialist access arrangements for external examinations, in class tests and controlled assessments.

7.7 Review - For students on the special needs register parents are invited to have access to the SEND information on their child that we share with teachers for. All students on the SEND register will have a profile on the dashboard outlining their needs. This information will be reviewed termly. For those with an Education, Health and Care Plan there is an annual review in line with the SEND Code of Practice 2014 requirements in addition to the termly reviews. Where appropriate, adults involved in the support of the young person other than those at Redborne Upper School may be invited to contribute to the annual review process.

7.8 As students enter year 9, parents are asked to contribute to a student's profiles so that as much information can be distributed at the start of the school year additional to that which is provided by the feeder school. This usually takes place during the Meet the SENDCo sessions which are held in the Summer Term of Year 8.

7.9 The school also welcomes and encourages close home school links and the SENDCo team, in conjunction with the pastoral system and year staff, seeks to make contact with parents to discuss any rising issues or concerns at an early stage. To facilitate this, the SENDCo team attends parents evenings and open evenings. The SENDCo will, where necessary, ask parents to come into school or have telephone meetings to discuss any concerns that staff may have. Parents are similarly welcome

to request a meeting or phone call and are encouraged to share any concerns with the school.

8. Access to a Broad and Balanced Curriculum

8.1 All students have an entitlement to experience the full range of subjects offered at Redborne. There may be occasions where access is made more difficult due to the needs of the student.

8.2 Wherever possible the student remains in the class although adjustments can be made whilst still maintaining access to that subject area.

9. Students with SEND and their engagement in activities within school

9.1 Wherever possible all students participate together. Adjustments may be made to the task to meet health and safety requirements; this may include support or a change to the desired outcome as well as peer support.

9.2 There is no planned withdrawal of access to school activities. Any withdrawal is at the written request of the parents/carers and considered by relevant staff.

10. Governing Body evaluation of success of education offered to students with SEND

10.1 The link governor uses the SEF, alongside assessment data to evaluate the effectiveness of the provision offered to students with SEND. This is presented to governors as part of the on-going review of school effectiveness.

11. Complaints Procedures

11.1 Parents who have any complaints regarding the operation of the school's special needs provision should follow the school complaints procedure. Details are available on the school website.

11.2 The school can also provide contact details for SENDIASS an independent support body that works with parents and children with SEND. Further advice on parental rights can be obtained from the SEND Support Team at Central Bedfordshire Council.

12. Continual Professional Development

12.1 The governing body is keen to ensure that all staff have the opportunity for ongoing professional development and to this end the SENDCo, in conjunction with the Training School CPD co-ordinator provides CPD opportunities for all staff.

12.2 These opportunities are in line with the training needs identified both on a personal and departmental level through the school's self review procedures, including staff appraisals, and via the whole school CPD Training School plan.

12.3 The SENDCo:

- Provides detailed information on each intake year,
- Delivers input on staff wide INSET days,
- Delivers CPD workshops on specific learning needs (these could be before or after school),
- Informs Senior Management and relevant Heads of Department of suitable CPD opportunities that may be recommended,
- Provides planned staff input and training on different SEND related areas based on school wide needs,
- Provides other training/briefing as requested by staff and/or departments.

12.4 In order to ensure the SENDCo is aware of recent developments in SEND provision and legislation, the SENDCo:

- is a member of NASEN (National Association of Special Educational Needs and Disabilities)
- attends annual update training courses
- attends relevant CPD, Inclusion and/or Examination board courses

12.5 Learning Support Assistants are encouraged to undertake ongoing CPD:

- through the provision of internal and externally led training courses during school wide INSET days and throughout the year
- through full or partial funding for external certification in Learning Support/Higher Level Support Assistant status
- through attendance on INSET courses
- through attendance on in school training sessions

13. Use of Outside Agencies

13.1 Links have been established with specialists throughout Central Beds LA and other agencies e.g. ASD Advisory Outreach Team, speech and language, physiotherapists and occupational therapists for support and training when needed. This is delivered both to specialist learning support staff and the rest of the school staff population when required.

14. Role of Parents and Carers

14.1 As with all students, parents are asked to support the school in terms of uniform, behaviour and homework.

14.2 For students with SEND, home-school contact is essential for both parties to get a full and accurate view of the situation.

14.3 Parents are involved in planning support for the student on an ongoing basis but particularly in relation to annual reviews, reviewing SEND profiles, choosing options, work experience and transition into post 16 education or training.

15. External Links

15.1 Redborne works closely with its feeder schools, parents and supporting local authority, medical and social care agencies in order to provide comprehensive support for students who have or may have SEND issues.

15.2 These arrangements include:

- termly liaison meetings with the feeder schools' SENDCo plus additional arrangements for the Year 8 into 9 transfer
- regular informal contact with other local upper school SENDCo to share best practice and professional knowledge
- SENDCo attendance at multi-agency meetings
- close working relationship with all relevant local authority departments, including the SEND Support team.
- where necessary, longer term transition support (for instance in the case of students with autistic spectrum conditions) and liaison with specialist provision within the county.

16. Child Health, Social Care and Access and Inclusion Service

16.1 Regular meetings are held with all the above agencies at which heads of year, SENDCo and the deputy head responsible for student welfare are in attendance.

16.2 Fortnightly year team meetings are held with the Attendance Officer for the LA, year staff, PSO's and deputy head and relevant information is fed back to the SENDCo.

16.3 Child In Need (CIN) and social care meetings are held when required in relation to the individual needs of students.

SEND Information:

SENDCo – Mr Ben Middleton – ben.middleton@redborne.com

School phone number – 01525 404462

Contact is best made by email in the first instance as we may be teaching and not able to answer calls.

Emails cannot always be answered immediately, but a response should be given within three working days.

Overview of Redborne Upper School

Redborne is a very successful, oversubscribed Upper School of over 1,600 students, 450 of whom are in the Sixth Form. Over 80% of our Sixth Form go onto university and 14 have gone to Oxbridge in the last 3 years.

We have been designated a [National Support School](#) by the Department of Education. We were graded "good" in our [Ofsted inspection](#) in November 2017, with many positive comments being made by the inspection team.

In April, 2011 we were granted Academy Status by the government and as such we are now an independent but state funded school.

We are proud of our academic record, our extensive extra-curricular work, our community links and our excellent pastoral system.

We are an inclusive school and strive to support all children to enable them to make the best possible progress and achieve well. To accomplish these aims, we offer a broad and balanced curriculum with high quality teaching. We provide effective support for children with Special Educational Needs and Disabilities, starting from our first contacts with parents and carers when a child enters our school. We make sure that additional needs are identified early and we offer a range of provision according to identified needs. We work with a range of other professionals to ensure that all children receive the support they need to do well at school.

Education, Health and Care Plan (EHCP) for children and young people with complex needs. There is an emphasis in these plans on personal goals and will describe the support a child will receive while they are in education or training. The plans are used to ensure:

- All of the information about the child or young person is in the same place
- All of the professionals involved are fully aware of all the child's needs so that they plan together for how to meet them.

Where a child has an EHC plan, funding is allocated to that pupil from the local authority to meet their needs. The amount and how it can be spent is agreed in consultation with the council.

EHCPs and the related provisions are reviewed annually in consultation with parents/carers.

SEND Support

Children with less complex needs but who still require help will come under our SEND support remit.

All students are entitled to good quality teaching, differentiated according to their needs. For students in Central Bedfordshire for whom there is deemed to be an additional need, there will continue to be a graduated response. Pupils who are at SEND Support will either be stage 1 or stage 2. All funding for pupils at SEND Support is provided through the school's delegated resources.

The graduated response has been drafted in the light of national guidance and can be found at:

https://www.centralbedfordshire.gov.uk/migrated_images/early-years-guidance-2018-3_tcm3-30415.pdf

Appendix 2: Common procedures and practices to support Special Educational Needs and Disabilities (SEND)

Identifying pupils with SEND	<ul style="list-style-type: none"> • Good transition arrangements to ensure early identification, • Teacher and parents concerns about a pupil's progress are shared and interventions through discussion and observation, • Whole school data analysed from formal and informal assessment, • Communication with parents to ensure a co-ordinated plan is produced.
Consulting parents and children with SEND and involving them in their education.	<ul style="list-style-type: none"> • Regular contact with SENDCo and Learning Support team. • Annual review meetings, • Parent consultation evenings, • SEND Plans and profiles on Provision Map, alongside whole school progress reporting systems. This outlines progress related specifically to need so that targets can be set based on strengths and weaknesses at the time. • Home/school communication via home/school books or email as appropriate.
Assessing and reviewing pupils' progress	<ul style="list-style-type: none"> • Screening assessments taking place at the start of year 9 for all pupils, • Tracking progress in pupils' literacy development, • Tracking pupil progress against what was achieved previously and what students are expected to achieve in the future, • Targets set and reviewed through the school reporting system, • Specific SEND targets discussed at parents' evenings, through Provision Map, via email, via phone or meetings in school if appropriate, • Annual review of Education Health Care Plans.

Supporting children with SEND in moving between phases of education and in preparing for adulthood	<ul style="list-style-type: none"> • Meetings with middle school SENDCos, • Opportunities to meet the SENDCo team during the year 8 open evening event, • Up to 5 transition days throughout year 8, • Potential for SENDCo involvement in Annual Reviews from year 7, • Meet the SENDCo opportunities for year 8 pupils and parents/carers, • SENDCo visits to middle schools and TA visits to students who may need additional transition support, • Staff work on building pupil independence in preparation for further education and employment, • Students to receive careers advice when choosing GCSE subjects. • Meetings between the SENDCo, the young person and the parents to be arranged to ensure the right pathways are being followed if necessary.
Teaching children with SEND	<ul style="list-style-type: none"> • Teachers are fully informed of all pupils' needs and regular information updates are provided through the use of the school dashboard; staff meetings/training and email communication. • Classwork and homework differentiated to allow pupils to work at their level and succeed in their learning, • In year 9 small Learning Support classes for boosting literacy, numeracy, organisation and social skills designed to raise students' self-confidence and self-esteem about learning, • In years 10 & 11 pupils can opt to take Curriculum Support lessons to have additional English and maths support with specialist teachers, • Staff implement strategies for all children as advised by SENDCo.

<p>Adaptations to the curriculum and learning environment for children with SEND</p>	<ul style="list-style-type: none"> • Differentiated work and resources in class, • 1-1 and small group boosters provided outside of lessons, • Additional resources provided to meet specific needs, • School environment adapted to meet accessibility needs e.g ramps, lifts and stair lifts for children with physical disabilities, • Variety of Entry level courses and alternative qualifications for students in the following subjects: <ul style="list-style-type: none"> • Science • English • Maths • Food Technology • ICT
<p>Expertise and staff training to support pupils with SEND</p>	<ul style="list-style-type: none"> • Regular training for both Teachers and Teaching Assistants from specialist teachers linked to Autism, sensory and physical impairments, speech and language difficulties, • Downs syndrome etc as appropriate, • SENDCo and TA meetings with a variety of outside agencies, • Specialist TAs secured through experience and training in specific areas, e.g speech and language, Autism, • Support from Local Authority (LA) specialists, • Regular whole school SEND briefings to allow for training with Special Educational Needs and Disabilities and SEND related information sharing.
<p>Evaluating the effectiveness of the provision made for children with SEND</p>	<ul style="list-style-type: none"> • SENDCo and line manager have regular meetings, reviewing data and interventions, • Regular department meetings, • TA observations by SENDCo, • SLT Learning Walks across the school.
<p>How pupils with SEND are engaged in activities with those without SEND</p>	<ul style="list-style-type: none"> • Quality first teaching, • Differentiated work and resources allow pupils to be involved in whole class activities, • Subjects other than maths and science are taught in mixed ability classes and, in year, in tutor group classes, providing inclusive classroom settings, • Use of specialist equipment and resources to allow full integration, • Appropriate seating plans.

Support for improving social and emotional development	<ul style="list-style-type: none"> • Key worker scheme (regular mentoring with an assigned TA/teacher), • PSHE curriculum integrated into registration times and citizenship lessons, • Break and Lunch club to aid conversational skills and emotional support, • Extra-curricular activities, • Time out pass if needed, allowing students time to calm down in a quiet environment with adult support available, when necessary. • BASE to provide mentoring and support for students that struggle with their behaviour in the classroom.
How the school involves outside agencies	<ul style="list-style-type: none"> • Referral forms/EHA (Early Help Assessment) forms (A referral form designed to outline difficulties that a central board at the local authority can advise on appropriate interventions), • Education Psychology involvement if necessary, • Links to local Special Schools and Alternative Curriculum Provision for students at risk of exclusion or for those whom standard educational provision may not suit, • Advice sought through correspondence with specialist teachers, • Meetings with Local Authority specialists who can advise on ways to support young people with a variety of learning, sensory and physical needs, • Pupil 1-1 work with outside agencies when the need arises • Teacher/TA training,
