

# School Council 2017/18

# Luke Wheeler, Year 11

I hope to achieve this year on the school council a system for achievement points which is clear on what you can do to get them. Along with this I aim to make achievement points have value and matter.

I also hope to achieve better toilet conditions and fix the locks on the bathroom doors. So far we have talked about the new build and how the 6<sup>th</sup> cafeteria would be set up and what it would serve and where you could study

Being on school council means I can bring ideas, problems and improvements (to do with school) forward to the school leadership team. If you could change anything about the school what would you do? Maybe there aren't any clubs for you, or you need better support with your revision? I'm open to any new suggestions. I am a representative for yr 11 and I want to make sure I can voice year 11s opinions. I have realised that people don't always see what school council achieves, therefore we have planned to write reports and update the school council notice board more frequently.

So far, this school year, I have been involved in reviewing the achievement point system, looking at alternative uniform choices, organising Mr. Croft's leaving assemblies and raising awareness about the poor state of toilets, canteen seating, sixth form car parking, to higher authority. I'm looking forward to the rest of the year on school council and shaping things that matter to us as students.

**Rhianna-May Duffy, year 11**

# Jack Hulbert year 10

I am committed to the school and the school's values. All my school reports have been exemplary, demonstrating my hard work and commitment. I am popular with my peers and teachers alike. I am sociable and approachable, and listen to other people's opinions.

A representative should be good role models for their peers and uphold the values of the school. They should act as ambassadors for the school at all times.

In my role as a member of the school council I will ensure that I relay Year 10's view points and suggestions. This way everyone will benefit from the meetings.

I will present Year 10's ideas to the other representatives and as a collective we will work to sort out any issues and come up with inventive ways to improve the school.

**Rachel Simpson, year 10**

# Eleanor Ware, Year 9

**I am a caring, dedicated student who always tries my best in whatever I do.**

**I like to be a part of things, and want to help everyone enjoy Redborne as much as I currently am already.**

**I want to help everyone be the best that they can be in whatever they are passionate about.**

**I am energetic, and put care and attention into everything I do.**

# Luke Harrison, Year 9

**I'm a very outgoing person and love talking to other people. I would be fully open to taking in suggestions to mention in meetings. I've had a lot of past experience and am already a member of the year council. I love trying to support the school and make it a positive environment. I've also been a house captain in middle school, so I'm used to working with others and co-operating with multiple individuals. I also help the community in many ways.**

**"If I can, I will. If I can't, I'll try"**
