

A FEW APPS AND RESOURCES TO AID STUDENTS WITH EXAM PREPARATION

REVISION

Quizlet

www.quizlet.com

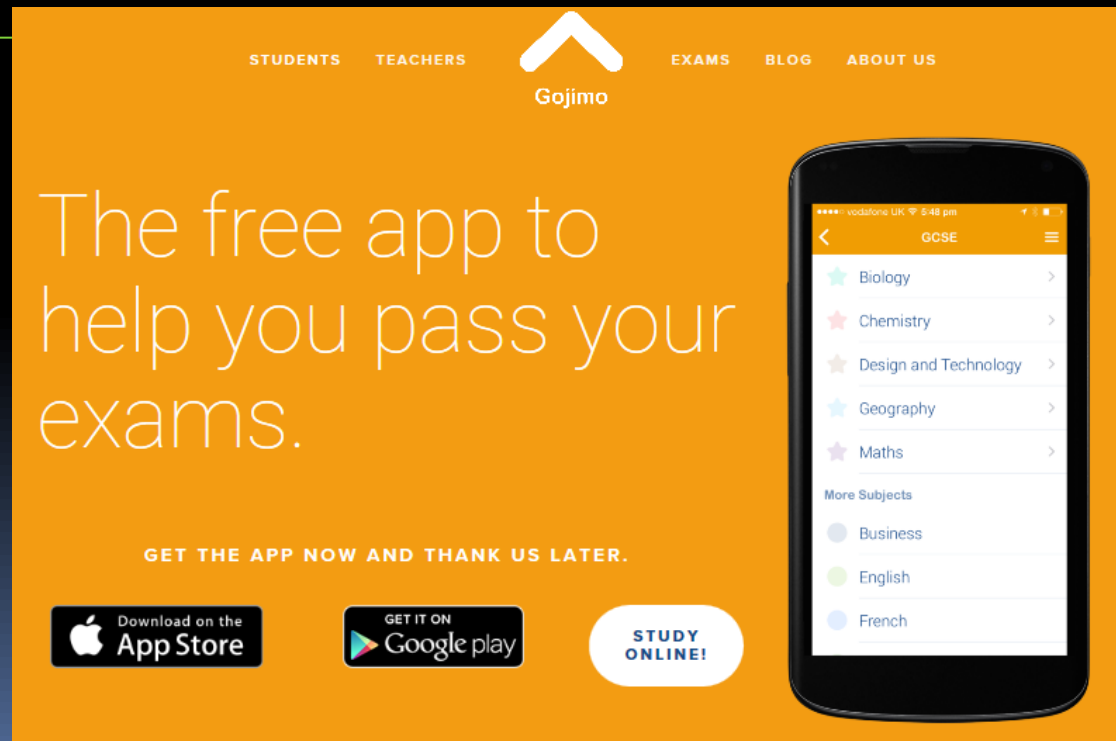

- Quizlet enables students to create their own revision flashcards, as well as use sets created by others. Teachers can also create sets to share with their students. When you access a set, there are four different modes in which you can use them: cards, learn, match and test.

The screenshot displays the Quizlet user interface. On the left, a navigation sidebar includes 'Latest Activity', 'Your Study Sets', and 'Settings'. Below this is a blue banner for 'Take Quizlet to go' with download links for the App Store and Google Play. The main content area features a purple header for 'Quizlet Live' with the text 'Our new in-class activity, now available on all your sets:'. Below the header, a 'Welcome to Quizlet' section contains two cards: 'Create a study set' and 'Invite your students', each with a corresponding 'Create a study set' or 'Create a class' button. At the bottom, there are sections for 'YOUR CLASSES' (with a '+ Create a class' button) and 'YOUR FOLDERS'.

Gojimo

www.gojimo.com

- It works like this: you pick your subject and your exam board, then you take part in quizzes to test your knowledge.

The banner features a bright orange background. At the top, navigation links for 'STUDENTS', 'TEACHERS', 'EXAMS', 'BLOG', and 'ABOUT US' are displayed. The Gojimo logo is centered. The main text reads 'The free app to help you pass your exams.' Below this, it says 'GET THE APP NOW AND THANK US LATER.' and includes 'Download on the App Store' and 'GET IT ON Google play' buttons. A 'STUDY ONLINE!' button is also present. On the right, a smartphone displays the app's interface, showing a list of subjects: Biology, Chemistry, Design and Technology, Geography, and Maths, with a 'More Subjects' section below listing Business, English, and French.

- French

iMindMap and bubb1.us

<http://bubb1.us>

- Use an app or web tool like this to create mind maps and share with others

The screenshot shows the bubb1.us website homepage. At the top left is the logo "bubb1.us" in blue and red. To the right are "Sign Up" and "Sign In" buttons. The main heading is "Brainstorming made simple" in blue. Below this is a large graphic featuring a mind map on the left, a cartoon man at a laptop with a play button over it in the center, and a lightbulb on the right. A white starburst contains a "Start Brainstorming" button and a "Learn more »" link. Below the main graphic are two sections: "Unleash creativity and potential" and "On the go". The "Unleash creativity and potential" section includes links for "View examples »", "Read user stories »", and a list of benefits: "Improve study skills", "Organize thoughts", and "Plan out goals". It also features a diagram with a central "Mind Map" box connected to two boxes: "Capture and connect ideas on a topic" and "Expand and organize your thinking". The "On the go" section states "Available on web and iOS" and features a "Download on the App Store" button with the Apple logo. To the right of the button are images of an iPad and a smartphone displaying the app interface.

Memrise

www.memrise.com

- If learning languages and vocab is your focus, then Memrise is worth checking out. You can click on the optional 'help me to remember this' button, which allows you to select a 'meme' to help you remember it.

About About Us Science Team Jobs Labs Contact Us

Science

Our recipe for effortless learning has 3 simple ingredients:

The first is science. We're obsessed with using brain science to help you learn faster. This isn't a marketing ploy - we're really experts in this stuff. And from day one we've built Memrise to embody the very best knowledge about how your brain works, and so help you learn as quickly and effortlessly as possible.

We use mems to help you form vivid, sensory memories. We test you continuously, always making sure to give your brain just the right workout. We remind you of what you've learned at scientifically optimized times so your memories are always growing stronger, and never forgotten.

Want to learn more about the kooky scientific principles that make Memrise tick?

[Learn more about the science](#)

Fun

The second is fun. We want to make learning your favourite playtime activity. That's how it should be: we learn best when we're relaxed, curious and confident, and, after all, the world is a very interesting place.

So we've turned learning facts and language into a game where you grow a colourful garden of memory. When you learn a new word, think of it as planting a new seed in your memory. Then every time you review that memory you help it to grow a little bit - like watering a little flower. By reviewing at the right time you help it grow as fast as possible. Soon you'll have a glorious garden full of flower-memories - it's like a guiltless video-game!

Want to learn more about how the Memrise garden will help you love learning?

Get Revising

<https://getrevising.co.uk/planner>

- Whatever apps or tools are used, being organised with revision is key. Useful resources to be found here, including the Study Planner tool.

The screenshot shows the GetRevising website homepage. At the top left is the logo "GetRevising" with the tagline "part of The Student Room". To the right is a search bar containing the text "Try 'The Cold War' or 'DNA'". Below the logo is a navigation menu with links for "Create", "GCSE", "A Level & IB", "University", "Study planner", "Past papers", and "For teachers". A large banner for "GCSE A-LEVEL REVISION COURSES" is displayed. Below the banner, the text "Reach your target grades" is followed by "Smart revision tools proven to boost your grades". A green box contains the text "Homework and exam help" and "Search over 214,500 study resources". At the bottom of this box is a search input field with the placeholder text "Try the 'Cold War', 'DNA' or 'Algebra'..." and a "Search >" button.

This screenshot shows the "Browse by study level" section of the website. It features three blue buttons for "GCSE", "A Level & IB", and "University". Below these buttons, there are three columns of content:

- Create your study plan**: Includes an icon of a calendar and the text: "Take the stress out of homework and exams. Tell us what you're studying and get a personalised study plan in under 5 minutes." Below is a "Create a study plan >" button.
- Practise past papers**: Includes an icon of a document and the text: "Practising past papers is the best way to tell if you're ready for exams. Our smart tool can find past papers for all levels and subjects." Below is a "Find a past paper >" button.
- Get creative**: Includes an icon of a notepad and a mind map, and the text: "Create your own study resources with our easy to use tools. Create a mindmap to plan an essay or turn your revision notes into flashcards." Below is a "Create one now >" button.

At the bottom of the section is the text "Why teachers and students love Get Revising".

Do you have any other suggestions?

Please share if you do..!
